

Twin Cities - Youth Service Area Map

- **The highlighted area represents Bolder Options' primary service area.** Rather than using a strict mileage radius, we generally ask whether a volunteer mentor can pick up a youth within approximately 20 minutes during weekday rush hour. This helps make weekly mentoring meetings practical and sustainable for both the mentor and the youth.
- We accept referrals from outside the highlighted area but these youth are far less likely to be paired.
- If you're unsure whether a youth falls within our service area, please contact us before submitting a referral.
- Please note that submitting a referral does not guarantee a mentor match. The demand for mentors continues to exceed the number of trained volunteers available, and we work diligently to make the strongest and safest matches possible. If you know someone who would make an exceptional mentor, please encourage them to consider volunteering with Bolder Options. Expanding our mentor community allows us to serve more young people.
